

Need some helps,I appricate.

wangqianyu 20 posts since

Sep 1, 2008

I am studying clearspace2.5rc,but it is very big and difficult.I can't get into deeper of cs2.5.

after 1 week,I still can't create a simple plugin.

I can't find out full tutorial on jiveforum.

I need some full detail tutorials.and some examples that are from simple to difficult.

this is my first plugin.it doesn't show out.I don't know where is wrong!Help!

[Here](#) is the documentation for building plugins in 2.5.

There are also a couple of good example plugins [here](#). Check out the Sharepoint and JIRA plugins. That may help.

Good luck!

Hi,

Need some helps,I appricate.

Currently, plugins are not supported for the 2.5 Release Candidate but you should start to see some more documentation soon. In the meantime, here are some great resources to help you out:

Keep an eye out here for new plugins (good example code) and other developments:

<http://www.jivesoftware.com/community/community/developer/clearspace/plugins>

Be sure to watch the documentation:

<http://www.jivesoftware.com/builds/docs/clearspace/latest/index.html>

Specifically:

<http://www.jivesoftware.com/builds/docs/clearspace/latest/ClearspacePluginDevelopmentGuide.html>

Hopefully this helps get you started. Thanks!

-Todd

Need some helps,I appreciate.

thank you todd.I have watched these docs and I have written a new plugin.it's very simple!

but I got a trouble.when I added this plugin in clearSpace at admin console.it seem to te ok

and then I restart the server then I goto posonalize page.tomcat console showed a exception:
