

Project Calendars not scaling with more...

Wally Rogers 820 posts since

Feb 25, 2008

I edited a project calendar to change the rows from 2 to 6 (my preferred default). It squished 6 weeks into the space for two weeks.

I deleted the calendar and created a new one - but the results are the same - see below.

Checkpoints

Apr 3, 2009 May 1, 2009

Project Calendar

Fri	Sat	Sun	Mon	Tue	Wed	Thu
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30
31	Aug 1	2	3	4	5	6
7	8	9	10	11	12	13

Project Calendars not scaling with more...

Wally,

I am taking a look at this now.

Curtis,

Thanks

Wally

I captured this using IE8.

I'm not seeing the problem in IE7 at work. I'll need to go home and look from there again on IE8.

Wally,

Were you able to reproduce in IE8?

Not yet. Do you have IE 8 that you can check with?

Know what - I think I do. Let me load up my VM and see if it is IE8.

Wally,

Just played around with IE8 in 3.0.5 and the issue did not show up. Either it was fixed in 3.0.5 or the issue was specific to some other HTML / process that you went through. If it happens again can you do a hard refresh (Cntrl + R) and see if that resolves it? As well as check for any HTML widgets / screen grab all the widgets?

Project Calendars not scaling with more...

Thank you,

-Curtis

Hi Curtis,

I'm not seeing it any longer either. it must have been addressed in 3.0.5. Thanks much.
